

Bakery Crumb-Catchers™

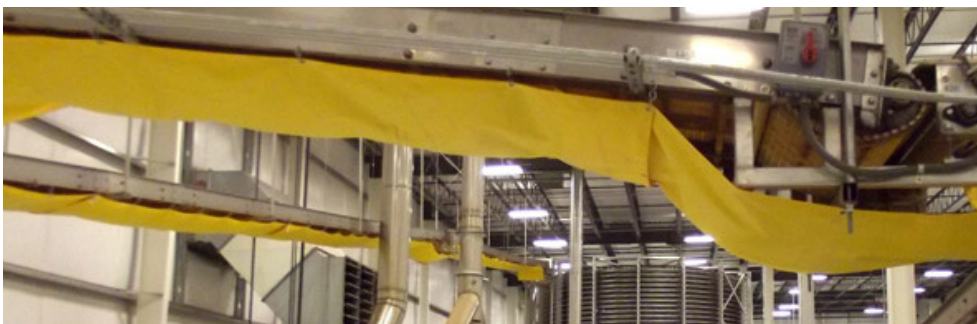

Crumb-Catchers for Commercial Bakeries conveyor systems feature innovative designs that are proven easier for your crew to remove, clean and re-hang. Save time and money with designs for high crumb areas that do not require cloth removal for cleaning. The result is a cleaner, more efficient and safer operation. Heavy duty vinyl-coated polyester cloth sections include brass grommets. Innovative welded construction eliminates threads thereby providing stronger, more durable seams.

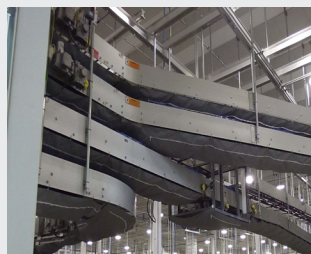

CATCH-CLOTHS ARE EASY TO EMPTY, CLEAN & MAINTAIN.

CATCH-CLOTHS KEEP YOUR CONVEYOR SYSTEM & PLANT CLEAN AND SAFE.
